I Found Old Games

What's the Point?

archive.org is very slow

historical documentation
or something

disclaimer: I did
not grow up with
girlsgogames.com
or
newgrounds.com

- most of this is
"officially
released"

Sites that Still Exist

Try Something New

- itch.io
 - short indie games, usually free or really cheap
- those shit .io games still exist. I am not linking all of them
- rhythm games
 - taiko
 - bemuse
